RESEARCH IS WHAT WE DO

We know information is the cornerstone of every remarkable deal. That’s why research is our passion, and the foundation on which we’ve built the richest, most valuable treasury of portfolio, tenant, sale comp, lease comp, field and aerial information, imagery and analysis in the industry. Our investigative, insightful research team is nearly 2,000 strong, and scouts out the data our clients rely on to make confident, profitable choices. Working across markets and submarkets, from the road and in the air, we dig deep. Making the calls, tracking the values, profiling the tenants, identifying the true owners, creating the relationships and connecting the dots in order to tell the full story.

Couple that with marketing platforms that are used – and fueled – by the industry professionals themselves. More than 250,000 commercial real estate decision makers use CoStar’s platforms, including Apartments.com and LoopNet, to update their listings, connect with peers, and close deals. Those transactions only make our research engine more powerful.
